Subject: Thank You

Mayor Mahan and honorable members of the Santa Clara City Council,

On behalf of the Santa Clara community and the 49ers faithful, thank you for voting to accept the stadium feasibility study and move forward with negotiations with the team.

A new stadium will be a positive addition to the city's entertainment district and will generate a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate hundreds of new jobs, millions of dollars in annual economic impact, hundreds of thousands of dollars in new annual tax revenue and millions for Santa Clara Unified School District. Hosting a Super Bowl in Santa Clara would bring hundreds of millions in additional economic impact and will shine a spotlight on Santa Clara and the entire Silicon Valley.

The 49ers proposal calls for no money out of our pocket -- no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region.

Respectfully,
Bruce Papenhause

Independent economic impact studies confirm that a new stadium would generate hundreds of new jobs, millions of dollars in annual economic impact, hundreds of thousands of dollars in new annual tax revenue and millions for Santa Clara Unified School District. Hosting a Super Bowl in Santa Clara would bring hundreds of millions in additional economic impact and will shine a spotlight on Santa Clara and the entire Silicon Valley.

The 49ers proposal calls for no money out of our pocket -- no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region.

Respectfully,
Paul Hillig

Carol McCarthy - RE: San Francisco 49ers stadium proposal

From: Gail Tiberi
To: Carol McCarthy;City Manager;MayorandCouncil
Date: 1/21/2008 10:39 AM
Subject: RE: San Francisco 49ers stadium proposal
CC: gtpubs@hotmail.com;jim@directedsolutions.com

Dear esteemed Mayor and City Council Members of Santa Clara.

I have written to you on this subject last year and again last week. I am writing again to ask you to please vote no on the San Francisco 49ers stadium proposal. All can see that this proposal is bad for Santa Clarans and a poor use of our city monies. Further I am asking you, as elected officials, to please put this measure to a binding vote of all Santa Clarans and eliminate the voices of special-interest groups who invade our city council meetings with their own agenda when they are not the ones who will ultimately be paying the costs asociated with this project (though they stand to reap the benefits). Theirs are not the voices of those who make their homes in Santa Clara.

As I'ved stated previously, this project is bad for Santa Clara:
> > When you add up all the costs involved for this project to be paid by Santa Clara (value of the land, stadium development, parking lot development, relocating or reconfiguring a power substation).

> > When you add up the value of the jobs that would be created and find that these jobs pay below the poverty line in this county.

> > When you consider that looting Silicon Valley Power's piggy bank to subsidize a stadium will weaken SVP's financials, benefit very few people (many of whom are out-ot-towners), and expose all Santa Clarans to the wild fluctuations of the energy market that PG& E customers had to endure.

> > When you review your own report on economic activity, which indicates that activity will be greater with alternative projects

Rather than enriching a for-profit enterprise, please do the job you were elected to perform and focus on the needs of the Santa Clarans who live and work and make their homes in this wonderful city. There are much more important things to spend our money, our taxes, our city funds on, including roads, police and fire departments, services to children through seniors, sewers, libraries, and water supply.

At the very least, put this on the ballot as a binding vote so that all Santa Clarans can express their views for you to act on the will of the people.

Thank you and best regards,
Gail Tiberi

Dear Sir/Madam:

I am writing to acknowledge that your below email was received and was
provided to the Mayor and City Council. Thank you for writing to the
City with your comments on the 49ers' proposal to build a football
stadium on City-owned land.

Your email will be added to the public record of comments on this
issue, as the City's feasibility study continues.

Thank you for writing to Santa Clara with your comments.

Sincerely,
Carol McCarthy
Deputy City Manager

>>>

Mayor Mahan and honorable members of the Santa Clara City Council,

I am writing to support Santa Clara's efforts to build a new
world-class stadium for the 49ers. A new stadium would be a great fit
for the city's entertainment district and would deliver a significant
boost to the Santa Clara economy. Independent economic impact studies

confirm that a new stadium would generate:

Hundreds of new jobs;
Millions of dollars in annual economic impact;
Hundreds of thousands of dollars in new annual tax revenue for the city's general fund.

The 49ers' proposal calls for no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region. I urge you to continue your work and move forward with the stadium.

Respectfully,
Nina Quick

Subject: Stadium

The following has sent a message:
Name: Edward Strine
Email: e_strine@yahoo.com
Comments: A fellow co-worker told me the Raiders football team owner was looking in to possibly building a stadium in Dublin, Ca. Could Al Davis be convinced in to sharing the Santa Clara Stadium with the owners of the S.F. Forty-Niners? This could possibly mean the City Of Santa Clara would pay $ 0 dollars for the Santa Clara Stadium. Could you please try to convince the owners of the Niners & Raiders to look at this option. The New York Jets & Giants have no problem working together on their stadium project. This could definately be a win-win for everyone involved. The restaurant & hotel owners would have even more occupancy during their winter seasons. I also believe the Niners & Raiders should look in to purchasing Great America from Cedar Fair. The first choice for the stadium site is definately the only site. I can not see how that secondary site will work. It is too close to the residential neighboorhoods to the south. You will have too many people opposed to the noise
and the loitering of their neighboorhood. Thank you for your time, hard work & consideration.

Sincerely, Edward Strine - resident of Santa Clara, 2171 Esperanca Ave, 95054.

Subject: Report on the City Council meeting last night

CC: Henry Cate <cate3@panix.com>

I kept track last night of who commented on the proposal to continue with the project of subsidizing a stadium for the 49ers. I thought you might find this helpfu:

By my count there were 66 comments. There were 34 people for the stadium, and 28 against. There were four people which didn't seem to be taking a side.

There were 45 who stated they were residents of Santa Clara City. These 45 broke down to 19 for and 26 against.

Subject: Stadium /49rs vote at City Council - 7:00 pm TUESDAY
Busy City! (Architectural Comm. & LOWV Measure A & B forum tomorrow)

On Tuesday night, the City Council is voting on whether to instruct the City Staff to proceed with more detailed negotiations with the 49rs to construct a stadium.
This is my personal encouragement to attend the City Council tonight.
As you've seen in the papers and news last night and today, this is a big vote.

I personally support moving forward.

There will be a City-wide Vote.
I believe even the supporters, including those on the City Council, recognize that ultimately any proposal will go to the voters, so I'm not sure why they would not take things further.

Financial Diligence
The City Manager and staff, whom I always judge as extremely vigilant when it comes to financial matters, has recommended that the City continue discussions and more serious negotiations with the 49rs. They've stated and are aware that there is a funding gap beyond which they would recommend the deal, but believe there are possibilities in resolving that. (Again, wherever they end up, a vote will happen. We should put the best possible deal on the ballot and take the argument from there.)

Sensitivity to Neighborhood Concerns

- The **49r owners, John & Jed York** came out to our neighborhood last July and sat down over coffee (and cookies) at Joanne's house and spoke of their initial proposal and answered questions. To me that indicates sensitivity to Santa Clara citizens and neighborhoods. That

will be an issue here, as again everyone, including supporters, recognize there will be an impact to nearby neighborhoods on game & event days and must be addressed.

- Likewise, Council members who strongly support moving forward, including **Kevin Moore, Dominic Caserta and Mayor Mahan**, are the same people who've come out to our neighborhood sympathetic and helpful regarding our own concerns.
- Other Council members, whom I count on to carefully watch the numbers, **Jamie McLeod, Joe Kornder and Will Kennedy**, are also people who have visited our neighborhood, sensitive to our neighborhood concerns. I'm not sure where they'll end up on this vote, but am confident they'll be watching out for the numbers and the neighborhoods.

It will be an interesting night. It will provide insight into the judgments applied by the Council members and the diligence of the City Staff.
I am completely confident that both groups can take this opportunity further applying financial diligence and sensitivity to the impact on citizens and neighborhoods.

I encourage neighbors to attend and express our confidence that City Council members and the City Staff can and should take this further. It is a potentially large opportunity for the City, an opportunity to, though indirectly, boost sales tax revenues that provide monies that help fund projects such as our own street and sidewalk improvements. Applying redevelopment funds also opens up opportunities to increase, or provide earlier, funds to schools and other agencies providing services to us.

I encourage neighbors to attend and show support to move forward.

Regards,

Mike O'Halloran

Subject: Re: I support the feasibility study

Thank you for the reply Carol!

I really think this is a win win situation and it would be great for the whole area especially Santa Clara. I think it would be smart of the city to also explore bringing the Raiders into the fold. It would cut costs tremendously and create a ton more revenue as they are looking for a state of the art stadium as well. I go to both teams games and the fans at Oakland aren't nearly as bad as portrayed. Other areas do the same thing with 2 teams as the Giants & Jets and it works. Just something to think about.
Thanks again,
Dennis

Subject: 49ers Stadium

The following has sent a message:
Name: Travis Flora
Email: tflora31@sbcglobal.net
Comments: I am a Santa Clara resident, and I am okay with the construction of a new stadium for the 49ers in Santa Clara so long as the entire project meets the minimum requirements for a US Green Building Council LEED gold certification (obviously platinum certification would be better). If no effort will be made to achieve a gold certification, then I am fully against the stadium. In addition to the prestige of hosting an NFL team, the City would help establish a model for other major developments around the country.

By the way, I feel that all new developments in Santa Clara should meet the USGBC LEED gold certification requirements as well.

Subject: 49's Stadium Placement

CC: Planning

Dear Mayor and Council Members,

As a citizen and community leader,(Primavera HOA Board) I understand the desire of the City to host the 49'ers Stadium. I have seen the first proposal and recognize the benefits to both the team and the City. Although the stadium would be very close to mine and my neighbor's homes it is the way of progress.

I was informed by a team representative that you are considering putting the stadium in the lot next to the soccer field because of objections by Great America. This is unacceptable to us and we would vote against that location.
It would be too close to our community and the noise alone would be intolerable. It would also have to be a taller structure to fit the space and that would be an eye-soar and I believe it would lower our property values. In fact if you were to approve the closer location I would be forced to sue all parties for legal relief.

Since the City holds the lease to the Great America locations it would seem that you could convince Great America to play ball. If they were to refuse then it may be prudent to re-evaluate the lease. Since we moved here 9 years ago I know that there is less and less attendance at Great America and they have raised the price of admission and have fewer attractions. I know that we and our extended family don't go there anymore.

Please consider us, the homeowners, when you take up this issue.

Sincerely,

Scott and Aline Runde

Subject: Two citizens calling opposed to 49ers proposed stadium

Late today, a telephone call was transferred to the City Manager's Office from two residents of Santa Clara. Both are opposed to the 49ers stadium. They asked that their concerns be expressed to the Mayor and Council, and to the City Manager.

Sandra Lang, 2633 Tartan Dr., Santa Clara, 95051
- against the football stadium proposal
- schools aren't doing well and the city should help them
- 49ers make good money
- most stadium jobs will be minimum wage jobs
- not much of a benefit to Santa Clara

Tracy Lang, same address (daughter)
- "appalled" that Council would consider this proposal (asked that I use this word)
- Can't understand why the City would put money into a private business venture
- Concerned that the current Council will make the deal and then be out of office when problems arise, and that residents will be "stuck" with the problems
- Don't want the stadium or the team to play here
- Don't want the problems that come with stadiums (traffic, trash, "chaos")
- Very upset that Council would consider moving forward with this proposal

Subject: San Francisco 49ers stadium proposal

Dear Sirs and Madams,

Please consider very seriously the negative affects that the proposed stadium will have on the city of Santa Clara.

As someone who lives, works and owns a home in Santa Clara, I strongly encourage you to end negotiations with the 49ers.

Respectfully yours,

Gail Wisniewski

Subject: The 49ers Stadium Proposal

The following has sent a message:
Name: Glenn Grigg
Email: g7m5grigg@juno.com
Comments: While you are considering the proposal to build an NFL stadium in Santa Clara, remember that there was opposition to building Marriott's Great America park and hotel when that was first proposed. The vocal minority do not represent what is best for the City of Santa Clara.

Subject: Thank You

Mayor Mahan and honorable members of the Santa Clara City Council,

On behalf of the Santa Clara community and the 49ers faithful, thank you for voting to accept the stadium feasibility study and move forward with negotiations with the team.

A new stadium will be a positive addition to the city's entertainment district and will generate a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate hundreds of new jobs, millions of dollars in annual economic impact, hundreds of thousands of dollars in new annual tax revenue and millions for Santa Clara Unified School District. Hosting a Super Bowl in Santa Clara would bring hundreds of millions in additional economic impact and will shine a spotlight on Santa Clara and the entire Silicon Valley.

The 49ers proposal calls for no money out of our pocket -- no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region.

Respectfully,
John Nguyen

A new stadium will be a positive addition to the city's entertainment district and will generate a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate hundreds of new jobs, millions of dollars in annual economic impact, hundreds of thousands of dollars in new annual tax revenue and millions for Santa Clara Unified School District. Hosting a Super Bowl in Santa Clara would bring hundreds of millions in additional economic impact and will shine a spotlight on Santa Clara and the entire Silicon Valley.

The 49ers proposal calls for no money out of our pocket -- no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region.

Respectfully,
Bonnie McClory

Subject: Thank You

Mayor Mahan and honorable members of the Santa Clara City Council,

On behalf of the Santa Clara community and the 49ers faithful, thank you for voting to accept the stadium feasibility study and move forward with negotiations with the team.

A new stadium will be a positive addition to the city's entertainment district and will generate a significant boost to the Santa Clara economy. Independent economic impact studies confirm that a new stadium would generate hundreds of new jobs, millions of dollars in annual economic impact, hundreds of thousands of dollars in new annual tax revenue and millions for Santa Clara Unified School District. Hosting a Super Bowl in Santa Clara would bring hundreds of millions in additional economic impact and will shine a spotlight on Santa Clara and the entire Silicon Valley.

The 49ers proposal calls for no money out of our pocket -- no new taxes for local residents, no negative impact on Santa Clara's general fund, and no increase in utility rates. This project is good for the city and good for the region.

Respectfully,
Steve Nelson
