Mayor Mahan and City Council Members:

I support the expenditure of additional funds to continue the feasibility study for the 49er Stadium Proposal in Santa Clara. I understand the complexity of the proposal you are reviewing and the importance of doing a comprehensive and diligent study of all the issues before making a decision on this very important project for the City of Santa Clara.

I appreciate the hard work and dedication you've put forward towards this project. I believe it is in the overall best interests of the City to have all the facts available to the Council and the public when the time comes to make the final decision.

Sincerely,

Jerry Marsalli

Subject: Increased $$ for 49ers Feasibility Study

Hello,

I just read that you are considering increasing the current cost of the feasibility study from $200K to 500K.

This is ridiculous.

Santa Clara has so much need for other, more important things like our supposed Rivermark library, more police resources, etc. This football stadium should be the least priority for our funds.

Please consider the opinions of your residents (and voters) and end this ridiculous stadium proposal now.

Thank you

I'm a senior citizen & long time resident of Santa Clara (of almost 50 years) who can not attend your next council meeting, but wish to express my feelings about the stad-
ium on which you wish to spend the citizens' money. I believe it is a blatant waste of funds & if the billionaires want the stadium, let them pay for all the cost since they're the ones that would benefit from it, and that includes the increased cost of police & other services. I'm part of a large group of voters that are watching what the council does regarding this matter.

Thank you for taking the time to read this e-mail.

Sincerely,

Nina Burgess

Dear Mayor Mahan and City Council members:

I support the proposed stadium at Great America. More important, I support the careful and thoughtful approach the Council and staff have taken to determine the economic viability of the project. I would also support any reasonable additional funds that may be required to study the project..

I have lived and worked in Santa Clara for over 50 years and have observed our City grow and prosper, largely due to the wisdom and forsight of previous councils and administrations. I am hopeful this Council and Staff will find a way for Santa Clara to be one of 33 cities in America to be the home of an NFL franchise

Once the process has been completed, I look forward to a thorough public discussion of all aspects of the project.

I don't want my tax dollars used to build a stadium for the 49ers.

With the recent down turn in the economy we should be frugal. Things might get worse before they get better.

Please drop the project to build a stadium for the 49ers.

Thank you for your consideration.

Please do not waste an additional $185,000 in public money to continue
to study of the San Francisco 49ers' stadium subsidy proposal. This proposal brings the total to $500,000, that the mayor and council have wasted, to study an ill-founded proposal that few Santa Clara residents and voters support.

Q: If the city cannot manage a simple feasability study without delays can cost overruns, how is it to manage the actual construction and management process?

A: Sanity kicks in and the project is stopped.

Regards,
Daniel Lewis

I am a resident of Santa Clara for 30 years. I haven't seen a silly ways to spend our city fund. The stadium will not only cost us millions of dollars, but it will also create havoc on our rush hours and the over use of our infrastructure. So as a long time resident of this community , I am strongly oppose of this proposal.

I am disgusted by the city's willingness to increase to half a million dollars its subsidy for a a "feasibility study" for the 49ers stadium. Stop this.

No city has ever benefited from support for a sports stadium. They are all losers. Let the 49ers pay for their own stadium.
