THE POSITION

Firefighting involves extremely difficult and dangerous physical work, often involving emergency and life-or-death situations. The physical and mental demands of the job are considerable and the selection process is challenging. The Santa Clara Fire Department is a paramilitary organization with a clearly defined chain of command that must be followed. All personnel must adhere to established standards regarding personal conduct and grooming. Adherence to discipline is a mandatory responsibility of each member of the Santa Clara Fire Department.

Once hired into the position, a Firefighter I will be assigned to an extensive Firefighter Academy to learn the basic skills necessary to perform the job. After graduating from the Academy, the typical work schedule for a Santa Clara Firefighter I consists of 24-hour shifts, averaging 56 hours per week. In the span of 24 calendar days, a Firefighter I will work eight 24-hour shifts.

Upon graduation from the Academy, each Firefighter I will be assigned to a company for a three-month interval. During this time, probationary Firefighter I’s continue to receive training from the Department and are expected to study on their own. During Department drills, each Firefighter I is expected to pay attention, observe the techniques being demonstrated, participate actively, and ask questions. There are defined study and drill requirements that must be met; a formal evaluation will be conducted each month by the Company Officer. After the initial three-month period, the probationary Firefighter I will be assigned to another company for three-month intervals during the probationary period. The Training Division will also monitor the progress and skill level of each probationary Firefighter I with periodic testing that will take the form of written, manipulative, and oral examinations. It is expected that a probationary Firefighter I will successfully pass all of these examinations.

New Firefighter I’s must successfully complete the two (2) year probationary period to be considered for permanent appointment to the position.

The complete job description, salary schedule, summary of benefits, and Memorandum of Understanding for this position can be found online at www.santaclaraca.gov.

Written Examination
The entry-level Firefighter written examination is designed to assess the skills and aptitudes necessary to succeed as a Firefighter I. Specifically, the written examination is generally designed to measure the ability to understand and remember written and oral information, perform basic mathematics, and understand mechanical principles and diagrams. The examination will include approximately 100 multiple-choice questions, each with four possible answers. Candidates will be allowed up to two hours to complete the written examination. Calculators will be allowed.

Oral Examination #1 and #2

The second oral examination is a more in-depth panel interview (up to 30 minutes). While this examination may further evaluate the areas assessed in the first oral interview, it is also designed to assess candidates in competencies such as interpersonal skills, oral communication, and analytical skills.
