Dear Santa Clara Neighbor,

YOU ARE INVITED TO OUR OPEN HOUSE

It's been nearly a year since we first shared our plans for 3005 Democracy Way with you. The 48-acre site, currently approved for 3 million square feet of office, is being considered for revitalization as an exciting and vibrant new community offering a balance of housing, shopping, dining, offices and open space with easy access to transit and trails.

The project has a new name, Mission Point by Kylli, which is a reflection of the community that is helping to shape it. The comments and suggestions received at our public open houses and design workshops have been extremely valuable to the design process. Based on your input, the plan has evolved significantly, including greatly reduced building heights and the addition of a proposed public elementary school.

We are excited to share the vision for Mission Point with you as we continue our process of engagement with the community.
