- Participants who need to use the restroom while on a cardio machine can inform the Fitness Center volunteer so that their machine is not given away. Do not leave without notifying a volunteer.
- Staff is available to further assist if required.
- Participants are asked to wipe down equipment after each use.

Attire for Fitness Center

- Participants must wear appropriate clothing while in the Fitness Center. Shirts, shorts and/or pants are required.

- Casual dress shoes and dance shoes are not considered athletic shoes. Shoes that do not have the traditional look of an athletic shoe may be subject to approval from staff.
- Any person needing to wear an alternative shoe for medical purposes is to provide written confirmation from their health care provider. Staff may restrict use of certain fitness equipment.
- Staff reserves the right to determine appropriateness of clothing.

Attire for Natatorium

- Appropriate swim wear is required.
- Aquatic shoes are allowed in the pool as long as they do not leave scuff marks or disintegrate in water.
- Street clothes and street shoes are not permitted in the pools.
- Staff reserves the right to determine appropriateness of clothing.

Natatorium Hygiene

- The health and safety of participants and staff is our top priority. Included in that effort is to keep the facility and equipment in proper working condition. Please observe pool and spa guidelines to ensure that all may enjoy their time at the Senior Center.
- The Centers for Disease Control strongly recommends that all pool users shower with soap before suiting up to enter the pool. Nude showering removes bacteria from the skin and washes away body oils, lotions, hair products, etc. that can quickly use up the disinfectant in the pool.
- Do not swim with skin, ear, genital or other body infections, open sores, or wounds. Germs that cause illness can be spread from broken skin, even just microscopic amounts, in well-maintained pools. Pool water can dry out covered wounds and damage newly forming skin cells.
- Do not swim when ill with diarrhea. The microscopic germs that cause diarrhea can be spread when other swimmers swallow contaminated water. Swimmers with diarrhea shall not use the pool while they're ill, and for two weeks after symptoms subside.
- Waterproof swim pants must be worn by incontinent swimmers.
- No spitting, spouting, or nose blowing in the pool. Substances from our bodies can be passed in microscopic amounts from swimmer to swimmer, even in well-maintained pools. Please take a break from swimming if you've recently had a contagious illness or have open sores.

Using the Pools

Swimmers Caution:

To use the lap pool you must be able to swim one length of the pool without stopping.

- No food or glass containers are allowed on the pool deck.
- Participants on medication should consult their health care provider prior to using the spa or warm water pool.
- Do not tamper with any City equipment.
- Except during designated times, swimmers have priority of use in the lap pool.
- During designated times, non-swimmers in Lane #1 have priority of use as described by signage in the Natatorium (schedule is available in the monthly newsletter).
- Swim with those of similar speed. Always swim in a circle pattern.
- Swimming apparatus such as kickboards, pull buoys, paddles, and noodles may be used to assist you in your exercise program. Exercise aids may not be used as safety flotation devices. Use of any apparatus is subject to approval by staff.
- No swimming apparatus is allowed in the spa.

Tips to Use the Spa Safely

Staff recommends a time limit of 15 minutes in the spa. Leave the water to cool down before returning for another brief stay.

The **Centers for Disease Control (CDC)** recommends that you:

- Do not use the spa while under the influence of alcohol, tranquilizers, or other drugs that cause drowsiness or that raise/lower blood pressure.
- Pregnant women, elderly persons, and persons with heart disease should not enter the spa without prior medical consultation and permission from a health care provider.
- If a participant experiences nausea, dizziness, or feels faint while in the spa they should immediately get out of the water. These are signs of hyperthermia which can have serious health implications if ignored.
- Enter the spa slowly and cautiously. Be careful of your footing and allow your body to gradually get used to the water temperature. Leave slowly as well, because your leg muscles may be sufficiently relaxed to make you a bit unsteady, and you may become lightheaded.

Water Temperature

Water temperatures vary with each pool. So that pool users may make an informed decision whether or not water temperature is suitable for their needs, there is one (1) thermometer in each pool.

Pool	Pool Dimensions & Depth	Temperature Range	Thermometer location
Lap Pool	27' x 60' in length 3 1/2' to 5 1/2' deep	81-84 degrees F	Right handrail near end of wet ramp
Warm Water Pool	21' x 21' in length 3' to 4' deep	90-94 degrees F	Outside handrail near end of dry ramp
Spa	17 person	97-101 degrees F	Left handrail as you enter
