

# ONCE UPON A TIME...

There were 6

who lived in 6

Each of the 6

had 1

that dripped

&

After 1

each

wasted approximately 26

's of

. Together that

totals 156

's of

! The

spoke together and

decided they needed to get the

's fixed in order to do the right thing and

conserve

while saving

. All the

agreed

and

for a

.

*Everyone lived*

!
