RIPA Training Scenarios

Keypoints:

One entry, per person, per stop.
When in doubt, complete a RIPA entry

Primary officer or who had the most interaction.

Communicate with partner if more than one detained. Can split up the work and do entries to help out.

Narrative boxes – should contain brief summary for reason for stop and search. Two boxes total.

Emphasize – not an FI card. No personal information in any of the boxes.

Mandatory entries:

10-95, 11-95, 10-88, Drunk in Public, all in custody thefts, all car accidents/hit and runs cannot clear call unless you complete. In the event CODE 3 call, can leave the entry pending. Must complete RIPA entry once cleared from CODE 3 event.

5 Training Scenarios to capture our most common RIPA entries.

Bureau Only entries – do not use exact addresses. This will be specific to the CA DOJ portal. Example 400 or 500 block of ECR. Not applicable to HEXAGON.

RIPA FI cards now stocked in the RW room.

Clarification Questions:

Detention duration is from time of detention to release or arrest. Does not include time transporting, processing or booking. Consensual searches, may not be a detention, must be entered.

Transport by another officer.

Example: 703 arrests. 403 transports. Only 703 is responsible for RIPA entry from detention until moment of arrest.

Scenario #1:

Create an 11-95 event

(Remind them – Dispatch will create all of the call details when we go live. We are only creating an event for training purposes).
