My story:

Making things work: I have 63 patents and I'll use my talent to help Santa Clara, to improve the city and people's lives. The city council can use my inventiveness and business expertise.

I put myself through school as a steelworker. I have two engineering degrees and have held positions from engineer to vice president, and will never forget my steelworker roots.

I've lived in Santa Clara for 34 years. I raised my family here. My son attended Santa Clara public schools. I appreciate the education they gave him and I want to give something back.

My Beliefs:

I believe in good government and accountability. I'm pro-business, pro-public safety, and pro-neighborhood and a strong supporter of women's rights. The stadium is a great asset for Santa Clara if managed properly. I promise to help Silicon Valley Power continue to give residents great electrical rates and to attract more business to our great city.

Santa Clara has always been a good home for both professionals and workers with a good business environment, quality parks and city services. I have the background and values to keep and improve Santa Clara as a great place to live and work.
